

Programmer Developer

We are a 42 year old Manufacturing Company with stability and longevity in the market place and are currently looking for a full time, experienced programmer/developer.

Meramec Electrical Products is the leader in manufacturing power products for our customers. Recently highlighted by Governor Jay Nixon in the 2012 State of the State address, we are poised for growth and opportunity. To help us with our expansion and continual improvement, we are seeking a program developer.

This individual will work directly with the IT Manager and the Management team to coordinate efforts for a fully integrated solution. You must be able to work independently programming applications and solutions using industry best practices. The ideal candidate will have 3+ years relevant work experience and possess a Bachelors Degree, or equivalent experience in the related field. This is a full time, in house position and you must be willing to relocate or commute in order to be considered for this position, consultants need not apply.

Required Skills

- 1) Object oriented programming, data structures, SQL databases.
- 2) Ability to develop applications in Windows and Linux operating systems
- 3) Experienced in developing multiple solutions across multiple platforms
- 4) Have experience developing solutions utilizing PHP, Java, and Java Script
- 5) Excellent verbal and written communication skills
- 6) Ability to work independently, effectively schedule, organize and coordinate tasks that are deadline specific

Preferred Skills

- 1) Working knowledge of Apache Server, Zend Server, MS Server, SQL Server, PHP, MySQL and Web Services
- 2) Experience working with .NET, ASP, JSP, and C#
- 3) Previous end-to-end development experience

Our company offers competitive salaries based on experience, as well as an excellent benefit package which includes health, dental, vision, life, LTD, STD, 401K, profit sharing, educational assistance, vacation, and 8+ paid holidays to all full time personnel. If you have the required skills as well as the desire to work for a great company please send your resume with your salary requirements in confidence to the following address post marked no later than 12/26/2011:
